

THE PORTSMOUTH HERALD.

VOL. XVI., NO. 4589.

PORTSMOUTH, N. H., WEDNESDAY, OCTOBER 11, 1899.

PRICE 2 CENTS

Mrs. Elizabeth B. Grannis

Editor "Christian Nation," says:

"I have used FAIRY SOAP personally on some small articles and have had my laundress use it, and consequently I take pleasure in saying that it is really a most excellent soap."

Fairbank's FAIRY SOAP

is an absolutely pure soap, the use of which will do as much to preserve your clothes as a year's care; cheap common soaps do more damage than a year's wear.

Fairy Soap is the purest and best floating white soap made. Three convenient sizes for the toilet, bath and laundry.

FREE. Beautiful Art Pictures, dainty Dolls, and hand-some Booklet of Fairy Stories which will interest the children, given free for FAIRY SOAP Wrappers. Ask your grocer for "Fairy Art Booklet" illustrating these pretty gifts, or write us.

THE N. K. FAIRBANK COMPANY.

CHICAGO. ST. LOUIS. NEW YORK. BOSTON.

For the fall season we offer the most extensive assortment of Men's and Boys' Clothes, Hats and Furnishings ever placed on our tables.

Standard goods of reliable quality at moderate prices.

Our lines of Men's suits at \$6.50, \$7.50, \$8.55, \$10, \$12 and \$15 are far and away ahead of anything before shown in this market.

All the new style Hats are here, together with new Neckwear, Hosiery, Underwear and Gloves.

HARRY HOUGH SENTENCED.

Dover Cashier Gets Five Years in Jail.

Harry Hough, the former assistant cashier of the defunct Cochecho national bank of Dover, was indicted by the grand jury of the United States district court at Concord Tuesday afternoon on the charge of embezzling \$5,500 of the bank's funds.

Hough was later arraigned in court. He pleaded nolo contendere, and was sentenced for a term of five years in jail. One year of the term is to be spent in the jail at Dover and four years in the Manchester jail.

THAT "CROWN AND BRIDGE" PATENT.

Between the dentists of the whole country and the claimants of the patent in crown and bridge work there is a gigantic fight about starting, because the man of the profession have joined together their legal interests, under the name of the Dental Protective Association, and will employ in the case some of the best legal talent in the country, who will take it to the highest courts.

The dentists claim that the patent has long since expired and refuse to pay a royalty of \$25 a year, for all the back years the process has been used.

Attachments have been placed on the property of seven dentists in Boston and it is possible that others in this vicinity may also be brought into the fight, as they are contending for the same privilege which has caused the clash in Boston.

All the dentists in the city are more or less interested in the matter, as there are other processes in dentistry which this company lays a claim to, and has fought for its rights to have royalties paid to them by every dentist, using these processes in its business.

The dentists here have received notices to send in statements of the number of years they have used any of the processes claimed by these people and for every year they each would be expected to pay the sum of \$25 royalty.

Not all of the local dentists use the crown and bridge process, owing to the large cost to their patrons. The bridge is made of pure gold and costs \$10 or \$50. It does away with the plate for artificial teeth and admits of inserting any number of artificial teeth, between two others. Caps are placed over the two natural teeth and attached to the bridge of gold, the teeth fill the place where the natural ones have been removed.

As long as 18 or 20 years ago, the dentists were notified of the claim of the patentee, but they paid no attention to it, but kept on using the process. Now they believe the patent invalid and prefer to pay \$20 to the Protective Association to fight the claim rather than settle.

It will doubtless be many years in litigation, but it will be a case in the courts that will be watched with great interest.

"THE SUNSHINE OF PARADISE ALLEY."

Music hall will surely be packed on Tuesday evening next, when Denman Thompson's "The Sunshine of Paradise Alley," which is in its fourth season, will be seen again with Mrs. Chas. Peters as the Widow McNally, May Thompson as Mrs. O'Grady, John Walsh as Powers, W. J. Solly as O'Grady, Donald Harold as Watson, will be seen in their old parts. "Sunshine" is a play that leaves a profound impression on all who witness it and makes them desire to see it again and again. Like the famous "Old Homestead" there is very little plot, but the characters are those you meet with in every day life, and you can hardly divest yourself of the impression that you are not witnessing actual occurrences. The scenery this season is entirely new; new electrical effects will be shown, the Verdi Ladies' quartette will have new songs and Phila May will be the Sunshine, so there is nothing but success to be seen on the horizon of this engagement.

COAL RATES ADVANCING.

There is a sharp advance noticed in coal rates from the Middle Atlantic ports to New England ports. Several charters of large schooners have recently made from Baltimore to Boston or Portland at \$1.15.

TO CURE A COLD IN ONE DAY

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

ROCKINGHAM CONFERENCE.

The program for the seventy-fourth annual session of the Rockingham conference which began at the Christian church at Newton Tuesday and is to continue throughout Thursday, comprises much of interest. The opening session was in charge of the Rev. Myron Tyler, president, pastor of the Christian church in this city.

The annual sermon was given on Tuesday afternoon by the Rev. Dr. J. E. Bruce. In the evening, an address on "The Church's Need of Biblical Knowledge and How It May Be Supplied" was delivered by the Rev. Mr. Tyler and a sermon by the Rev. Edwin C. Hall.

This morning, a sermon was given by the Rev. E. K. McCord, and a meeting of the Women's Missionary society and a parliament led by the Rev. Mr. Tyler, occupies the afternoon. This evening, there will be a Christian Endeavor praise service led by the Rev. John G. Dutton, formerly of Kittery, Me. One of the evening addresses, on "The Endeavorers' Duty to Church and Pastor," will be by the Rev. Joseph Lambert of Rye.

Temperance addresses by the Rev. John A. Goss, the Rev. Joel Wilson, the Rev. M. W. Borthwick and the Rev. E. S. Greenleaf will open Thursday morning's meeting. A sermon will also be delivered by the Rev. Edwin Morrill of Manchester. In the afternoon, there will be Sunday school addresses by the Rev. George L. Todd of Merrimac, Mass., and the Rev. Dr. DeWitt S. Clark of Salem, Mass. A sermon by the Rev. J. J. Wilmarth in the evening and the observance of communion will close the meeting.

COST OF THE NAVY.

Acting Secretary Allen has prepared the full statement of estimates which will be submitted to congress for the maintenance of the naval establishment for the next fiscal year. These amount to \$73,015,183, which is an increase over the appropriations for the current year of \$24,037,187. Included in the increase for next year are appropriations of \$12,263,474 for public works and navy yards and stations. There is also an estimate of \$2,021,000 for the new naval academy. The item for the navy, including armor, guns and machinery, is \$22,083,101. The estimate for the bureau of construction and repairs is increased over the current appropriation about \$3,000,000, for steam engineering \$1,000,000, for pay of the navy about \$7,000,000, while the estimates for ordnance are decreased about \$700,000.

BRUNSWICK FUR CLUB'S FIELD TRIALS.

The annual field trials of the Brunswick Fur club will be held at Barre on Oct. 17th to 20th. The derby, open to all fox hounds whelped on or after Jan. 1st, 1898, will be run Oct. 17th. The all-age stake, open to all fox hounds, will be run on the 18th, 19th and 20th. First prize winners in the derby and in the hunting, endurance, speed and driving and trailing classes of the all-age stake will receive silver medals and club diplomas. The hound making the highest general average in the various classes of the all-age stake will receive a silver medal and will hold the American field cup for one year. Portsmouth has several gentlemen who are members of this club and are constant attendants at the annual field trial.

ROBBED THE GRAVE.

A startling incident, of which Mr. John Oliver of Philadelphia was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters,' and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks and am now a well man. I know they saved my life and robbed the grave of another victim." No one should fail to try them. Only 50 cents per bottle, at the Globe Grocery Co.'s store.

"DOGGING" DEER.

There is a growing suspicion that the practice of "doggling" deer is being indulged in to some extent, this fall. Any person guilty of this should be made an example of, and persons knowing of such cases could do no better service to the game interests of our state than by promptly reporting the facts to the fish and game commission.

Does Your Baking Powder Contain Alum?

Prof. Geo. F. Barker, M. D., University of Penn.: "All the constituents of alum remain (from alum baking powders) in the bread, and the alum itself is reproduced to all intents and purposes when the bread is dissolved by the gastric juice in the process of digestion. I regard the use of alum as highly injurious."

Dr. Alonzo Clark: "A substance (alum) which can de-range the stomach should not be tolerated in baking powder."

Prof. W. G. Tucker, New York State Chemist: "I believe it (alum) to be decidedly injurious when used as a constituent of food articles."

Prof. S. W. Johnson, Yale College: "I regard their (alum and soluble alumina salts) introduction into baking powders as most dangerous to health."

In view of such testimony as this, every care must be exercised by the housewife to exclude the over and over condemned cheap alum baking powders from the food.

Baking powders made from cream of tartar, which is highly refined grape acid, are promotive of health, and more efficient. No other kind should be used in leavening food. Royal Baking Powder is the highest example of a pure cream of tartar powder.

ROYAL BAKING POWDER CO., NEW YORK.

THEATRICAL NOTES.

The City Sports play in Concord this evening.

Low Benedict has a minstrel show of his own out on the road.

The next attraction at the Dover opera house will be Sporting Life.

Parson Jim, a comedy drama by Lloyd Grand, will come this way this season.

Some rattling good attractions are traveling the New England circuit this season.

Fairman's band will appear in both matinee and evening programs next Saturday.

Hi Henry's minstrels put on a new descriptive first part this season, entitled "The American Navy."

The rules prohibiting smoking or ex-pectorating in any part of Music hall are being conformed with nicely.

The Heart of Maryland is everywhere spoken of as one of the very best plays in existence, and it is interpreted by a strong cast.

The Al G. Field minstrels have been playing to jammed houses ever since they opened the McAnley theatre in Louisville, Sept. 12, to receipts of \$1,061.10.

HIGH JINKS IN DURHAM.

Some one has been having a high jinks of a time in Durham the past few nights. One night a large pumpkin was thrown through the window of the Chinese laundry, smashing out the glass and doing other damage and badly frightening the Chinaman. One night recently a party of the young sports took a young man, carried him to the woods and they bound him hand and foot and then fastened him to a tree, leaving him to gain his freedom as best he could. Numerous other tricks have been played upon the towns people.—Dover Democrat.

No such thing as "summer complaint" where Dr. Fowler's Extract of Wild Strawberry is kept handy. Nature's remedy for looseness of the bowels.

THE VETS' OPPONENTS.

Here are some of the companies which will compete with the Portsmouth Vets at the Manchester muster tomorrow:

Union Veteran Firemen's association of Peabody, Mass.; Vixen Engine company of Lowell, Mass.; Union Veteran Firemen's association of East Pepperell, Mass.; Washington Engine company, Kennebunk, Me.; Eagle Veteran Firemen's association of Lynn, Mass.; Veteran Firemen of New Boston; Neptune Veteran Firemen of Newburyport, Mass.; Constitution Engine company of New Boston; Pin Ball, No. 1, New Boston; Triumph Veteran Firemen of Berwick, Me.; Exeter Veteran Firemen's association of Exeter; Veteran Firemen's association of Nashua; Warren Engine company of Pepperell, Mass.; Manchester Veteran Firemen's association; General Butler company of Lowell, Mass.; Concord Veteran Firemen's association; Concord Fire association of South Weymouth, Mass.; Red Jackets of Cambridge, Mass.; Taggart and G. W. Colby company of Goffstown; Newton Fire association of West Newton, Mass.; Somerville Fire association, Somerville, Mass.; Everett Veteran association of Everett, Mass.; and the Phoenix Veterans of Marblehead, Mass.

Four of these have signified their intention of being accompanied by drum corps and two of bringing bands of music. It is expected that each company will have about fifty men.

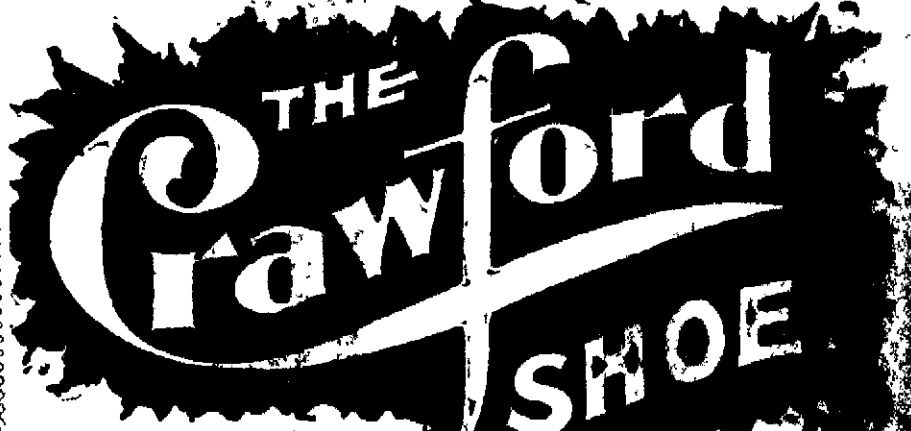

Others are yet to be heard from and probably thirty companies, at least, will be represented. At any rate the success of the affair is assured.

GOOD COON HUNTING.

Capt. David O. Davis of Newmarket with his sons, Herbert and Everett, and his dog, Hunter, succeeded in bagging four large coons early Tuesday morning, the combined weight being seventy-six pounds. One week ago, they captured one weighing twenty-three pounds. The dog tried them one at a time in different trees and they put up a plucky fight before they surrendered. This is the best record thus far in this vicinity.

Don't Tobacco Spit and Smoke Your Life Away. To quit tobacco easily and forever, be magnetic, full of life, nerve and vigor, take Dr. Williams' Pink Pills for Pale People. All druggists, 50c or \$1. Cure guaranteed. Booklet and sample free. Address: Sterling Remedy Co., Chicago or New York.

3 MARKET SQUARE.

BRITONS ARE SLOW

AND THIS MAY ULTIMATELY BRING PEACE.

Lord Salisbury Hesitates to Enter Into War With Transvaal—Peaceful Settlement May Yet Be Figured Out—England Still Preparing For Trouble.

Lorenzo Marques, Oct. 10.—The British steamer Guelph, from Southampton, September 8, has arrived here. As it was supposed she had ammunition on board consigned to the Transvaal authorities, the British third-class cruiser Philomel sailed to intercept her. The Guelph, on being signalled to stop and to state what ammunition she was carrying, replied that she had none. She was therefore allowed to proceed, the Philomel following her into harbor.

London, Oct. 10.—The Duke of Devonshire, Lord President of the Council of Ministers, speaking in Sheffield said that the deductions made from his recent speech in Manchester regarding the Transvaal situation has warned him that a member of the Government could not be too careful.

"Affairs have not become more critical during the last few days," remarked the Duke, "and I trust this interval for reflection may conduce to a pacific settlement."

Hesitates to Begin War.
London, Oct. 10.—The Berlin correspondent of the Evening Standard says:

"Information has been received in diplomatic quarters here that Lord Salisbury, at the last moment, hesitates to enter on a war with the Transvaal. A peaceful solution is not therefore altogether impossible, although it is improbable."

The vastness of England's preparations for war—seemingly out of all proportion to the work in hand in South Africa—was not fully realized by the public until the war office announced that 25,000 reserves had already been summoned to rejoin the colors. As a matter of fact Gen. Sir Redvers Buller will have command of twice as many British soldiers as the Duke of Wellington, the conqueror of the first Napoleon, ever saw collected on one battlefield.

The reasons back of this lavish display are probably a fear of a native rising and possible a conviction of the inadvisability of showing Europe that Great Britain is prepared to resist any action resulting from the prevalent continental ill-will.

In that connection the action of the American department of state and the friendly statements of President McKinley and Secretary of State Hay, published here, are welcomed heartily as a happy return for Great Britain's refusal to sanction continental intervention in the war between the United States and Spain.

As the Boers failed to attack Natal when the colony was vulnerable, it is beginning to be felt that they are pursuing a deliberate policy of waiting for the British proposals, remaining in the meantime on the defensive, in the hope of thus winning the sympathies of the world and, perhaps, the support of other nations, and leaving to Great Britain the ignominy of starting hostilities if war cannot be avoided.

If the burghers await the advance of Gen. Sir Redvers Buller, it is conceivable that peace will not be broken during the present year. Should that be the case and should the alleged falling off in the Boer command continue, the force confronting the British commanding general will be neither as numerous nor as efficient as that now encamped along the Natal border.

Events thus far have tended to give time for consideration. All the proposals in the correspondence between President Steyn of the Orange Free State and Sir Alfred Milner, British high commissioner in South Africa, show that the negotiations were proceeding up to Oct. 6, and that neither side despaired of peace. Sir Alfred Milner said he was sure any reasonable proposal would be favorably considered by the British government.

President Steyn's virtual proposal of a neutral zone, to be created pending further attempts at conciliation, meets with considerable approval.

Girl Severely Burned.
Chillicothe, O., Oct. 10.—Miss Jessie Stell bathed her feet in a solution of strong liniment, and was warming her toes at the open grate when the liniment caught fire, and in a moment her feet were blazing merrily. In her excitement she dropped the bottle, and the liniment which it contained was also ignited. Her shrieks for help summoned assistance, and the fire was put out, but not before she had been very severely burned. Her injury may be fatal.

Texas Street Car Men Strike.
San Antonio, Tex., Oct. 10.—The local branch of the Amalgamated Association of Street Railroad Employees have gone on strike on the fifty-three miles of lines of the San Antonio Street Railway Company. The men demand nine hours' work at the present rate of pay, which averages \$1.50 a day, instead of twelve hours. Eighty-five motormen and conductors have stopped work, and not a street car save those of two small suburban lines are running.

Killed By an Electric Fan.
Milwaukee, Wis., Oct. 10.—Mary M. Leiser, a domestic employed in a local hotel, was killed by an electric fan. She had washed her hair, which was of unusual length, and while holding it to dry before the fan, its meshes were caught in the rapidly revolving blades. These beat her life out before the fan could be stopped.

Gators Bring \$20,000.
New York, Oct. 10.—At the sale of thoroughbred horses in the sales paddocks in Morris Park the imported stallion Galore, from the string of H. W. Walden & Sons, was sold to W. H. Hopkins, of Baltimore, for \$20,000.

THE PRESIDENT IS BUSY.

May Stop at Milwaukee on His Return From the West.

Chicago, Oct. 10.—The great popular enthusiasm to meet President McKinley and hear him speak is evidenced by the most persistent efforts of delegations in Chicago from various cities to induce the President to extend his Western trip to places not on the original itinerary. The President has been resolute in declining these invitations, expressing to each delegation of citizens his regret, but emphasizing the necessity of his returning to Washington not later than Oct. 19. None of the delegations, however, except the one from Buffalo, has really given up its effort to induce the President to change his mind. President McKinley promised the delegation from Buffalo, consisting of Mayor Diehl, Congressman Alexander and J. N. Adams, that he would visit their city on some date soon after the end of the present trip. The Buffalodians are trying to arrange a new date for the celebration of Foundation Day of the Pan-American Exposition which will suit the President's convenience.

The Omaha citizens' delegation, headed by Editor Rosewater of the Omaha Bee, is still in Chicago. After the President had regretfully declined their invitation, they had a conference with the delegation from Milwaukee. The latter city is on the regular itinerary. The Milwaukee men agreed to try to arrange a luncheon for the President on the 17th instead of the dinner proposed for the 16th, thus enabling the Presidential party to go to Omaha on the 16th from a Council Bluffs, and thence to Milwaukee. The President has finally promised that if Omaha and Milwaukee can arrange this matter between themselves so that he may lose no time, he will go to Omaha for a few hours. The Omaha citizens have presented their case to Mr. McKinley in the most eloquent terms, justifying the urgency of their invitation to the unequalled enthusiasm among the people of Nebraska to have the President visit their state.

Chicago, Oct. 10.—Chicago's great Auditorium never held a larger gathering than last night, when the Chicago Day banquet was held within its walls under the auspices of the Fall Festival Committee. The stage, upon which 1,000 persons can stand, had been enlarged and a floor built out over the seats of the parquet, quadrupling the floor space of the stage.

Back of the raised table at the west of the hall, at which President McKinley and the guests of honor were seated, was an elaborate peace arch, twenty feet in height, constructed of paste. It was decorated with flags, from the folds of which twinkled hundreds of little electric lights. On both sides of the arch were large shields with paintings of the American eagle and groups of American, British and Mexican flags. The balconies were resplendent with banners and the coats-of-arms of all States in the Union.

The speeches were all roundly applauded, especially the one delivered by Sir Wilfrid Laurier Premier of Canada.

Still Remains a Mystery.
New York, Oct. 10.—All attempts at identification of the portions of the murdered woman's body at the Morgue have failed and the case is still wrapped in deep mystery. It was stated that an arrest in connection with the case had been made in Brooklyn, but this is denied by the authorities. Mrs. Ida Eggeberg, of No. 540 East 134th street, viewed the fragments of the body. She thought they might have been parts of Mrs. Haggerty, of Scranton, but after a careful examination Mrs. Eggeberg decided that they were not. Mrs. Haggerty was Miss Annie Milton, and left her husband, who is a physician, she boarded here with Mrs. Eggeberg, and vanished a few days ago.

Grocery Bill Causes Fatal Shooting.
San Francisco, Oct. 10.—Frank McAniff, a pugilist, and brother of Joe McAniff, also a pugilist, was shot and almost instantly killed by Frank Mitchell, a grocer. The altercation began over an unpaid bill and the striking of the grocer by the pugilist. As Mitchell ran to his store and aimed himself, he was followed by the McAniffs. When he emerged and saw the brothers, he warned them not to advance. They paid no attention to this, and Mitchell fired with the result stated.

Shamrock Has a Chance.
New York, Oct. 10.—The immense crowds that went down the bay to-day to see the Columbia and Shamrock try conclusions over the thirty-mile course are fully equal in size to those that witnessed the first three events, in neither of which a winner was declared. While all Americans hope that the Columbia will win, there is no denying the fact that the best judges of yachting believe the Cup is in danger, and that the Shamrock has much more than a fighting chance to win.

Explosion on Steamboat.
Jacksonville, Fla., Oct. 10.—Word was telephoned from Fort George Island, at the mouth of the river, that the Idlewild, a small thirty-five foot steamboat owned by the Messrs. Ledemann, wholesale merchants, blew up opposite Mayport. There were four boys and two men on board. One person is reported missing, and two others are badly burned or injured.

The Cartridges Exploded.
Columbus, O., Oct. 10.—By the explosion of a dynamite cartridge with which they were playing, two boys, Howard and Fred Parley, of 80 Meek avenue, were severely injured. Howard, aged 16, may die.

Conductor Fatally Crushed.
Toledo, Ohio, Oct. 10.—J. J. Collier, conductor on the C. H. and D., was caught between two strings of cars and fatally crushed. He died while his leg was being amputated at the Toledo Hospital.

Ground to Death in Clover Huller.
Decatur, Ind., Oct. 10.—Henry Bischoff, aged 42, a wealthy farmer, was ground to pieces in a clover huller on his farm three miles west of this city.

STRONG TESTIMONY.

This Is Portsmouth Testimony and Will Stand Investigation.

If you doubt the following and wish to investigate, you have only to go to some other state in the Union to prove it. It is not a long story published in Portsmouth newspapers at a Kalamazoo, Mich., or Tampa, Fla. It is about a resident of Portsmouth and given in his own words. No stronger proof can be had.

Mr. Charles Kennedy of 25 Gates street says: "A few years ago I was laid up with rheumatism for over two months so that I could not get out of the house. I never gained my former strength and my kidneys are apt to become sluggish. During the winter I was taken with a very lame back and the constant ache made me miserable. I was so sore over my kidneys that I could hardly pick up anything from the floor, and twinges caught me in the back that were excruciating. I went to Philbrick's pharmacy on Congress street for Doan's Kidney Pills; after I commenced to use them I gradually grew better till the lameness and soreness entirely disappeared."

For sale by all dealers; price 50 cents. Foster—Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name—Doan's—and take no substitute.

MUSIC FOR CHARITY.

Fairman's Boston Concert Band will present two of their excellent entertainments in this city at Music hall on next Saturday afternoon and evening, the entire receipts to be for the benefit of the Cottage hospital.

This excellent band comes heralded by a discriminating press as the perfection of Military Band concerts, under the artistic leadership of Mr. Roswell G. Fairman, New England's greatest bandmaster, who has diligently trained this grand ensemble of thirty musicians for years to attain that particular perfection which has made his band famous and so highly spoken of by those who have listened to its renditions of classical and popular music numbers that we promise a grand musical treat seldom enjoyed, which are glorifications of true music expressed in its most artistic form.

The programs to be presented by them here on their first visit will abound in very sympathetic numbers best suited for the occasion. To hear them will lead one to better thoughts for their own future and delight their appetites for music. It is the sweet strains of so perfect an instrumentation that leads one on joyfully in thought and spirit and is the principle means of refining the masses.

Many brilliant solos will be incorporated in their program by the special instrumental section of this organization, whose names are too numerous to mention, but we must however add that all who attend these concerts will have the opportunity of listening to Miss May Cook, the greatest of all cornet soloists and lyric sopranos.

Prices—Afternoon, 25 and 35 cents, evening, 25, 35 and 50 cents.

GREENLAND.

GREENLAND, Oct. 11th.

Town clerk Frank D. Wentworth yesterday drew John H. Brackett for grand juror and Otis Hall for petit, to serve at the supreme court to be held at Portsmouth on Oct. 17th.

Agustus Warner of North Hampton was in town yesterday.

Charles Badger of Newington was a visitor here yesterday.

Mrs. W. H. Brackett, who has been visiting in Newfields, returned home last evening.

Miss Carrie Barsantee, who for the past two weeks has been visiting in Boston, returned home yesterday afternoon.

William Brown and wife of Portsmouth were visitors in town yesterday afternoon.

Mrs. Irving Colston and Mrs. Waldron were in Portsmouth yesterday afternoon.

Mr. N. P. Merston was in Portsmouth yesterday.

James Perkins of Rye was in town yesterday afternoon interviewing some of the farmers with a view of buying their apples.

BEATS PORTSMOUTH.

Morphysboro, Ill., stands pre-eminent, not only among the cities and towns of the United States, but of the world, in the number of daily and weekly newspapers in proportion to its population. Within the corporate limits of this city are published four daily and three weekly newspapers, namely: Morphysboro Daily Era, Daily Independent, Daily Republican, Daily Bulletin, Jackson County Era, Weekly Independent and Weekly Republican. The official census of 1890 gave the city's population as 3830.

For Over Fifty Years

Mrs. Winslow's Sooty Syrup has been used for children teething. It soothes the child, softens the gums, keeps the mouth cool and is the best remedy for diarrhoea. Twenty five cents a bottle.

Everybody's liable to itching piles. Rich and poor, old and young—terrible the torture they suffer. Only one sure cure. Doan's Ointment. Absolutely safe; can't fail.

POOLS ARE PROBED

AND PRESIDENT CALLAWAY FAVORS THEM.

Testifies That Railroad Combines Properly Conducted Are a Benefit to Railroad and Patrons Alike. Refers to Old Railroad Pools as "Back Numbers."

Washington, Oct. 10.—President S. R. Callaway of the New York Central Railroad occupied almost a whole session of the Industrial Commission with testimony concerning present conditions in American railroads. He held that rate wars were not imminent while transportation rates were as they are at present; that the export trade at Newport News and other Southern ports had injured the carrying trade to New York City; that differential rates between freight commodities must shortly be abolished; that the pooling of railroad interests, properly conducted, would benefit both railroads and patrons, and that Government ownership of railroads would increase the difficulties under which the roads are now operated.

"Freight rates are now so low," said Mr. Callaway, "that our road could not conduct its business at a profit except for the enormously increased carrying capacity of engines and cars. One train to-day can transport as much as three trains twenty years ago."

Of differential rates he said: "Our company has sought for years past to have discriminations between commodities altogether done away with. This might be brought about by law, granting the Interstate Commission the right to adjust all controversies of the sort. Certainly the New York Central would approve such a course."

The witness spoke of the old railroad pools as "back numbers," and "inoperative."

"The old pools were no good," he put in. New ones might prove of mutual benefit, he thought, if the amount of shipping to be done by each road were limited as well as the freight charge imposed. The publicity involved in the execution of these laws, Mr. Callaway thought, would prove beneficial to the railroads.

"The difficulties under which roads are conducted," he explained, "are so great that we are always glad to have them brought before the public. As the situation now is, we offer persons interested access to every detail of our business."

New York had suffered through the growth of Newport News and other middle Atlantic ports chiefly because New York had formerly controlled the Atlantic export trade of the United States. As these other export centres grew, their custom was taken bodily from New York. This change had been furthered by special advantages in rates offered by roads connecting with the new ports. But New York did not feel the loss of that trade.

Receipts Are Satisfactory.

Washington, Oct. 10.—The War Department statements of custom receipts for the month of September 1899, make an excellent showing for a fall month. The receipts, notwithstanding the strike, reached the handsome sum of \$969,646.23. The receipts at the port for the month of August were \$1,029,303.74, a difference in favor of the month of August of only \$59,157.51.

Divided as follows, the receipts for September are: Import duties, \$857,347; export duties, \$63,559.54; foreign tonnage, dues, \$17,328.28; coastwise dues, \$1,241.99; overtime work, consular fees, etc., \$2,637.14; special harbor inspection, \$12,346.76; cattle inspection fees, \$3,779.64; storage and cartage charges, \$1,034.88; and passenger taxes, \$1,047. Total, \$969,646.23.

Honors to Russian Catholic Prince.

Bradford, Pa., Oct. 10.—Monsignor Martinelli, Archbishop John Ireland and Bishop Phelan, of this diocese, publicly dedicated a \$10,000 bronze statue today at Loretto, in memory of the Rev. Domestius Gallitzin, a Prince of the Russian family who came to America a century ago and built the first Catholic church between Lancaster, Pa., and St. Louis. The statue is a gift from Charles M. Schwab, president of the Carnegie Steel Company, a native of Loretto.

Soldier Shot Down by Farmer.

Harrisburg, Pa., Oct. 10.—Ernest L. Greist, a farmer living near Camp Meade, shot and killed a private of the Forty-first Regiment. Greist says soldiers had been stealing from him and he ordered away three of them whom he met on his farm. One of them attempted to strike Greist, whereupon the latter fired. Greist is in the Harrisburg jail.

Refuses to Sit With a Negro.

Louisville, Ky., Oct. 10.—Miss Anastasia Miller, of Versailles, will have to quit Wellesley College unless she consents to sit with a negro girl in one recitation daily. She has refused and her guardians have been asked to decide at once what they want done in the premises.

Will Ordain No Women Preachers.

Westbrook, Me., Oct. 10.—After violent debate the Maine Adventist conference has voted to ordain no women as preachers and to condemn the expansion policy of the Government. The chief reason against women is that they are incapacitated for performing the baptismal services.

Nonunion Miner Shot.

Evansville, Ind., Oct. 10.—Crip W. Burns, a colored employee of the First Avenue Coal Mine here, went to Henderson, Ky., to bring nonunion miners to this city to work in the mine. He was shot and killed by Charles Ossenberg, a union miner.

Little Girl Fatally Burned.

New Britain, Conn., Oct. 10.—Mary M. Mooney, the seven-year-old daughter of Thomas Mooney, is dead as the result of burns received while playing about a bonfire. She was badly burned about the body.

A SCHOOL BOY'S COMPOSITION ON THE BATTLE OF SANTIAGO.

A boy had been asked to write a composition on the naval battle of Santiago. This is the painful result:

"Samsun steamed up a waze an' then Cervera come out. He said: 'I guess I'll make a run for it.' So he cruck on all side an' came a bawldin' thru the naryer place where Hob on sink the Merrymack, an' he steered close to shore in hope to get away. Sly seen him comin' an' he signalled to the others ship an' the all went for Cervera like a thousan' of brick. Sly winged the Brooklyn round an' let 'em have it with both barls from the word go. An' pritty soon all the Spanish ships wen down plank like as tho' they had d-bored in 'em. Then when Sly an' the rest of the captais was w'p'n' there forrds an' lettin' the guns cool off, up-steemed Admiral Samsun. 'Hello,' sez Sly pleasantly, 'where you bin all this while?' But Samsun was out of sorts. 'It looks to me,' he says bit' r'y, 'as if you was the hole thing.' But Sly only lafs. 'O, I don't know,' he sez, and winks at the captais. 'I guess there's glorie enoll to go round.' But Samsun was off'n bilyus. 'If you'd obeyed or' er,' he sez, 'this d's'ner ful thing woodn't hav' happened.' Then Sly di'n't say no more coz he saw how bilyus Samsun wuz. An' the Cervera ships being sunk for good an' all, they couldn't try it over again. That's all I know about it up to the present writing."

THE INTERVIEWER.

"In order to demonstrate the wonder ful strength of a bicycle an interesting experiment was made recently," said a dealer, yesterday. "A wheel was fixed in a stationary position and on it was placed a platform weighing 100 pounds. Then one after another the assembled spectators were invited to take their stand on the platform. Ten men mounted and the bicycle was supporting a weight of 1,700 pounds without any perceptible strain on the wheels. Then five more men, one after the other, mounted the stage, and upwards of 2,250 pounds was by this time pressing on the wheel, but it still showed not the slightest sign of having reached the breaking point. Sixteen, seventeen, eighteen, nineteen, twenty men stood on the wheel, and the bicycle, weighing itself only thirty two pounds, was supporting on its back a weight of over 3,000 pounds. At this point some of the spokes showed signs of buckling under the great strain, and as the collapse of the human freight would have resulted in a possible injury to some, it was deemed best to call down the men. An examination of the wheel showed that the strain had not incapacitated the machine. It could still be ridden with safety and comfort after the severe experience it had gone through."

"It was proven by the experiments that while a slender machine like the bicycle will speedily collapse under severe pressure on any one part, if the weight can be distributed over the whole machine the resistance is astonishing. Compared with the weight put on the wheel in the tests, the pressure of even a very stout person is very slight; and the heavy weight who dreads a collapse of his or her wheel owing to the avoidance of the rider is giving away to fears that are quite unnecessary."

SOUTH ELIOT.
Charles Lester of Boston, policeman at the Union station, is visiting relatives in town.

Mrs. Allen Tobey and little child were the guests of her sister, Mrs. George McPheters of Deer street, Portsmouth, on Thursday last.

Elda George Brown and wife, who have been visiting the points of interest in Boston for the last week, returned home on Thursday.

Mrs. Charles Cummings was the guest of her daughter, Mrs. Wallace Mansot, of Portsmouth, on Thursday last.

Mrs. Albert Spinney and little son of Cambridge, Mass., who have been visiting relatives in town, returned home last Thursday.

Albert Wetherbee and wife and Jos. ph Maddock and wife of Portsmouth were the guests of relatives in town on Sunday.

Mrs. Margaret Spinney passed Sunday with her sister, Mrs. George Colbatch, in Portsmouth.

Henry Kennison and wife of Portsmouth were the guests of relatives in town on Sunday last.

WEDNESDAY, OCT. 11, 1899.

The Spanish-American war taught a great deal of geography. A war in the Transvaal would also be instructive.

Captain Carter should be thankful that he did not steal \$150 instead of a million or so. He would have got ten years.

Mr. McKinley did not think there was "glory enough to go round," consequently he made no attempt to divert any from Admiral Dewey.

Emperor William is not afraid of the results of an investigation into the scandal at Berlin. There is nothing French about Emperor William.

Time will doubtless show that there aren't enough democratic politicians in this country to induce Uncle George Dewey to do something ridiculous.

Reports from Ohio intimate that McLean, the democratic nominee for governor, has opened a campaign bar which leaks with amazing fluency. Its contents are expected to do some vigorous talking for the McLean ticket.

Gen. Miro and Gen. Sanchez, of Havana, announce that the Americans must get out of Cuba or fight. If these verbose warriors continue to talk in this manner they may awaken some fine morning to find themselves carefully filed away in a neatly whitewashed cell.

Not a thing has been heard of the Hon. Jerry Simpson, of Kansas, since he was hooted off the stage at a political meeting for expressing the hope that Aguinaldo might triumph over the American troops. It is uncertain, therefore, whether Mr. Simpson has vanished by evaporation or hidden himself in a cyclone cellar.

President McKinley, past master in the gentle art of handshaking, gave Admiral Dewey some professional advice. "Shake the other man's hand," said he. "You save yourself by not letting them get the grasp on you." If Mr. McKinley had had time he might have also assured the admiral that his advice holds good in the matter of leg-pulling.

The New York Journal mentions it as a "strange paradox in Roosevelt's nature that he believes whatever he says." Now, we have seldom experienced much difficulty in locating a paradox, even when skillfully concealed; but we are quite unable to locate the Journal's paradox. Roosevelt is a force because he believes what he says. Only that kind of man succeeds in impressing his opinions upon other men.

THE BEGINNING OF THE END.

One of the first and most logical results of the conference between the president and Admiral Dewey with reference to the situation in the Philippines appears in the orders which have already been issued for an immediate increase of our naval force in Asiatic waters. This step, taken, it is understood, on the earnest recommendation of the admiral, foreshadows an early assumption of co-operative action against the insurgents in Luzon. The ports of that island are to be effectively blockaded; Aguinaldo is to be cut off from his external sources of war supplies; the army and navy are to be brought into closer working order, and unless all signs fail, the campaign is to be pushed forward with the utmost energy until the insurrection is completely suppressed and American authority firmly established.

Tim's safe to be a day without Dr. Thomas' Electric Oil in the house. Never can tell what moment an accident is going to happen.

ADMIRAL DEWEY IN VERMONT.

SHELBURNE, VT., Oct. 10.—When the train bearing Admiral Dewey pulled in to this station today, the residents of this hamlet, and nearby villages, and folks from surrounding towns, even as far away as Burlington, had raised the crowd to nearly 3000. Admiral Dewey stood on the rear platform and preceded by Dr. Webb stepped off and walked across the lawn where an open landau stood in waiting. As the admiral walked across the open Sherman's band played "Under the Eagle." As Admiral Dewey stepped into the carriage a salute of seventeen guns was fired from behind the massive shrubbery nearby, the admiral remaining erect in the carriage, with his hat and gloves in his hand, and bowing and smiling to the people around him. Just at the steps of the carriage stood a tall man in working clothes, Michael McKenzie. Suddenly McKenzie threw his cap in the air and yelled, "Give three cheers for Admiral Dewey, the hero of Manila." The cheering began and stopped in the amazement which followed. The admiral, who had looked wonderingly at the man, dropped hat and gloves, and then impulsively shook McKenzie's hand, which was still in the air after tossing his cap. All along the road the school children were drawn up in line, each with a flag, headed by their teachers, and singing the following:

Yankee Dewey went to sea,
Upon an armored cruiser;
He took along for company,
Men and guns a few.

Yankee Dewey, ha, ha, ha!
You're a dandy;
With men and guns and cruisers, too,
You certainly are quite handy.

He sailed away to the Philippines,
With a fleet to fight them;
He smashed the Spaniards right and left,
Wherever he could catch them.

Yankee Dewey did it,
And did it so complete, sir;
That not a single ship was left
Of all that Spanish fleet, sir.

Montpelier Waiting.

MONTPELIER, VT., Oct. 10.—Beacons were flashing from hilltop to mountain peak and down in the mountain valleys tonight all over Vermont, sending out the news that Admiral Dewey had returned to his native state, although not to his native city. Every train today brought in visitors, but as the low excursion rates do not go into effect until tomorrow the great crowd is not expected until then. Some disappointment is felt that Vermont's welcome does not answer for New England, as the exercises in Boston the latter part of the week will prove a much better attraction for the people of three neighboring states. Tonight the expectancy centers on the hour of the admiral's arrival and as it has become a popular saying that among the Vermonters Dewey is sure to be ahead of time. It would not be surprising that when the special train rolls in a great crowd would not be in waiting, whether night or day. Tonight it is believed that the admiral will be here late Wednesday afternoon and the celebration intended to be inaugurated on Thursday is likely to be like the guest of honor, ahead of time.

FAILURE OF PEACE NEGOTIATIONS.

WASHINGTON, Oct. 10.—The state department received the following cablegram from the United States minister at Venezuela, concerning the failure of the peace negotiations that have been in progress for the last five days between the government and insurgents:

CARACAS, Oct. 10.—To Secretary of State, Washington: Negotiations suspended today. Venezuelan forces will be advanced. A decisive battle fully expected this week. Signed, BUERTO CABELLO LUMAS.

BIG POLITICAL DEMONSTRATION.

WORCESTER, MASS., Oct. 10.—Three things were combined in the great meeting at Mechanics' hall tonight: A ratification meeting of the republican state ticket; a legislative reunion, so to speak, for a large proportion of the legislature were there, and lastly an inspiring welcome home to the senior senator of Massachusetts, Hon. George F. Hoar, from his European tour. It was the most enthusiastic political demonstration in the history of Worcester county. The magnificent weather contributed toward the large attendance of republicans from all over the county.

WILL BE PLACED ON EXHIBITION.

WASHINGTON, Oct. 10.—Admiral Dewey has consented to allow the sword presented him by congress to be placed on exhibition in the secretary's office at the navy department.

CAPTAIN OF THE NORFOLK NAVY YARD.

WASHINGTON, Oct. 10.—Capt. James S. Grant has been assigned to duty as captain of the Norfolk navy yard.

ORDERS CANCELLED.

WASHINGTON, Oct. 10.—Acting Secretary Allen today cancelled the orders to the gunboat Marietta to make a survey of the dangerous shoal on the west coast of South America and directed her to proceed with dispatch to Manila via the Suez canal. The survey work will be turned over to the Dolphin. The Newark will be ready to sail for Manila from Mare Island within a week.

WORLD'S RECORD BROKEN.

BROCKTON, MASS., Oct. 10.—Eddie McDuffie and Ben Munroe of Nashville broke the world's record on the race track here today, McDuffie lowering the time from one to five miles and Munroe from five to twenty-three, inclusive. McDuffie made the first two miles in less than three minutes and made the last mile in 1:21.

BASE BALL.

The following is the result of the National league base ball games played yesterday:

Philadelphia 0, Boston 6; at Philadelphia.

New York 5, Brooklyn 2, called in the seventh inning on account of darkness; at New York.

Baltimore 5, Washington 5, called on account of darkness; at Baltimore.

COLD BLOODED MURDER.

LOWELL, MASS., Oct. 10.—In a little strip of woodland on the banks of the Merrimack, in one of the most unfrequented districts of the city, one of the most cold blooded murders was committed early this morning, the victim being Mrs. Fanny Boyd. The assailants are still at large.

SHIPWRECKED FISHERMEN ARRIVE IN PORT.

ST. JOHNS, N. F., Oct. 10.—The British steamer Labrador, from the Labrador coast, arrived this morning, bringing 105 men of the crews of six fishing schooners which were driven ashore during the late storms.

THE NAVAL ATTACHE OF THE BRITISH EMBASSY.

WASHINGTON, Oct. 10.—Charles L. Otley of the Royal navy was presented to Acting Secretary Hitt at the state department today as the naval attache of the British embassy at Washington.

CITY DECORATED.

HAVANA, Oct. 10.—The town is decorated today with flags in commemoration of the beginning of the war for Cuban independence.

WEATHER INDICATIONS.

WASHINGTON, Oct. 10.—Forecast for New England: Fair Wednesday, showers Thursday, light to brisk southerly winds.

BEN JORDAN KNOCKED OUT.

NEW YORK, Oct. 10.—Eddie Santry knocked Ben out Jordan in the sixteenth round.

PRICE OF APPLES UP.

"Apples are in great demand," said a New York fruit dealer yesterday. "The prices are going up and before the end of the week I would not be surprised to see the price go to \$6 or \$7 a barrel. This may seem strange, for the reason that this year's apple crop will pan out better than that of last year or the year before. So far this season we have exported over 100,000 barrels, and nearly all were the best stock. The prices paid for them were very gratifying to apple growers, being \$3 a barrel. Most of the apples shipped went to Hamburg and England, 25,000 barrels going to London alone. The season for the great demand in Germany for our apples is that the German apple crop was greatly reduced by severe storms. On Tuesday there will probably be another large shipment of apples to Hamburg on the steamer Kaiser Wilhelm der Grosse, and you may depend upon it that the price of apples is sure to be much higher this winter than for many years."

A THOUSAND TONGUES.

Could not express the rapture of Annie E. Springer, of 1125 Howard street, Philadelphia, Pa., when she found that Dr. King's New Discovery for Consumption had completely cured her of a hacking cough that for many years had made life a burden. All other remedies and doctors could give her no help, but she says of this Royal Cure—"It soon removed the pain in my chest and I can now sleep soundly, something I can scarcely remember doing before. I feel like sounding its praises throughout the Universe." So will everyone who tries Dr. King's New Discovery for any trouble of the Throat, Chest or Lungs. Price 50c, and \$1.00. Trial bottles free at the Globe Grocery Co. Every bottle guaranteed.

THE ROUNDER HEARD.

That the days are growing shorter.

That the mushroom crop this season was large and has been well plucked.

That secret orders are arranging for many entertainments during the winter.

That the improvements on Islington street, when completed, will make it the best street in the city.

That the small boy spends lots of time on Sundays looking for nuts.

That we are still dreaming of our new railroad station.

That the engine and pumps at the North end for the use of the Jones Brewing company will soon be started and will be looked after by an engineer from the wharf of J. A. & A. W. Walker.

That a good winter's work is expected at the shoe shop.

That the local politicians will soon commence to get in their work.

That another band concert is to be given at the Creek.

That a well known secret organization is said to be talking of giving a minstrel show this coming winter.

That the Exeter Veteran firemen will be after the Portsmouth Veterans at Manchester with blood in their eye.

That the police and firemen are not bothered much lately.

That there are only a few more pages on the calendar of 1899.

That people who never used to visit Music Hall can be seen there at many of the plays now.

That gents' button shoes are getting to be the real thing in the fashion line.

That the Sunshine club will soon organize for the season.

That there is still a large hole in Puddle Dock.

That we cannot tell the date of the dedication of the new Haven park.

That the barber's business will soon be quiet, as the football season is with us.

That the Merrimack Social club is arranging for a swell blowout.

That Portsmouth is one of the best lighted cities in New England of its size.

That the Knights of Columbus have a dance at Pierce hall on Friday night.

That the "Knocking club" is now at its best.

That Chief Engineer Sullivan of the fire department is well liked among his brother firemen.

That the gunning party who leave for the mountains today will have a special freight car to bring home their game.

FOR BENEFIT OF THE COTTAGE HOSPITAL.

It did not require the ear of a trained critic to determine the excellent qualities of the concert given by Fairman's band at the Opera house on Sunday afternoon and evening, and it is regrettable that larger audiences were not present to voice their appreciation of the ability and skill of this clever aggregation of musicians. The concerts were given in aid of the Humane society, and aside from the worthiness of the object, the programme was a wonderful collection of gems beautifully rendered, encores being frequently demanded. The hit of the evening was the descriptive piece, "Germans Before Paris," a vivid tone picture of the siege of Paris abounding in French and German melodies, many of them familiar, with the dramatic situations incidental to that period. The "Invitation a la Valse" was also a beautiful number, calling for a rhythmic movement with the bass and reed sections alternately catching it up, calling for perfect time. This was produced in such a manner as to elicit the heartiest applause, the band responding with the popular "Georgia Camp-meeting." The flute and horn duet by D. Edward Porter and Nicholas Grassi was also a noteworthy number, and, in fact, the entire programme was such as to thoroughly test the capabilities of every member of the organization.

Miss May Cook, the charming cornet and vocal soloist, carried off the individual honors of the evening, and it seemed as if there was a tendency on the part of the audience to work the little lady to death. She first appeared in a pleasing lullaby and for encore gave a pleasing rendition of "Castles in the Air," which gave ample opportunity to display her tremendous power and range, together with musical sweetness. It was in her cornet solos, however, that she took her auditors by storm, and she was compelled to respond to three encores before they would permit her to retire. Her first number was "The Devil's Tongue," written especially for herself and calculated to demonstrate the skillful tonguing of the performer. The young lady was accorded vociferous applause as she concluded, which was duplicated on every successive appearance. The other numbers, "The Palms," and "Killer nery," though less difficult and more familiar, were rendered most beautifully, and added much to the already brilliant programme.—Lowell Mail, Oct. 9th.

TOO BAD 'TISN'T TRUE.

Admiral Dewey's flagship, the Olympia, will, it is said, undergo repairs at the Kittery navy yard. Maine will be glad to welcome this historic cruiser.—Kennebec Journal.

"I was suffering with what the doctors called chronic indigestion, torpid liver, and vertigo," writes Mrs. Martha E. Barham, of Newville, Prince George Co., Va. "The doctor did me no good. My symptoms were giddiness in the head, pains in the chest and an uneasy feeling all over. I also suffered with female weakness."

"I was all run-down and could not do any work at all without suffering from nervous attacks. I wrote to Dr. R. V. Pierce, of Buffalo, N. Y. for advice. He advised me to use Dr. Pierce's Golden Medical Discovery and 'Favorite Prescription.' I did so, and need five bottles of each, and I cannot express the benefit I have received from these medicines. I gained in health and strength. When I commenced to use the medicines I weighed only 112 pounds, now I weigh 140 pounds. I thank God and Dr. Pierce for my recovery. My husband and friends all thought I would die but today I am a well woman."

The wonderful effects of this great "Discovery" are genuine and permanent; they are not due to any false or alcoholic stimulus for it contains no alcohol. Real substantial healthy muscular strength is built up; the stomach and liver are toned, the blood is purified and vitalized; the nerves are steadied, the entire constitution is rejuvenated and renewed.

In case of constipation, there is nothing quite so effective as Dr. Pierce's Pleasant Pellets. They act comfortably though surely; they do not gripe, you do not become a slave to their use. Their effect is lasting. There are countless substitutes, but nothing else is like them.

THE MAN OF THE HOUR
 A Magnificent
 Portrait Of.....
ADMIRAL DEWEY
 In Ten Colors
 (size, 14x21 inches)

Will be published by us shortly. It is now
 being printed for us on heavy plate paper
 in a form suitable for framing, by one of the largest art lithograph houses
 in America, in the famous French style of color-plate work. Every American
 family will want one of these handsome pictures of Admiral Dewey. It must be
 remembered that the picture will be in a sense a cheap chromo, but will be an
 example of the very highest style of lithographic printing. It will be an ornament
 to any library or drawing-room. Our readers can have the Dewey portrait at what
 it costs us (namely, ten cents per copy) by merely filling out the coupon below,
 and sending it to this office at once. There will be such a demand for this portrait
 when it is published that we advise sending orders in advance. As many copies
 as may be desired can be had on one coupon, providing ten cents is sent for each
 copy. Write name and address plainly, and remit in coin or postage stamps.

To THE PORTSMOUTH HERALD, Portsmouth, N. H.
 Enclosed remittance of.....cents, send me.....copies
 of the ADMIRAL DEWEY PORTRAIT in colors as described in your paper.

ABSENCE OF MOTIVE.

THE CALDWELL MYSTERY IS NOT YET SOLVED.

No Further Arrests Contemplated
 and Little Evidence Against Hen-
 non—No Signs of Violence on the
 Old Man's Bones—No Money and
 No Bitter Enemies.

Newark, N. J., Oct. 10.—Detectives
 are working night and day to clear
 away the mystery surrounding the
 murder of Nicholas W. Dobbins in
 Caldwell, and startling developments
 may occur at any time.

No further arrests, however, are con-
 templated just now, according to
 Prosecutor Chandler W. Riker. It is
 admitted by those most familiar with
 the case that thus far nothing but the
 most flimsy sort of evidence has been
 obtained against Marcus W. Hennon,

who is in jail here charged with the
 murder. Hennon's counsel will make
 an effort this week to obtain his re-
 lease.

"The Court," said John L. Johnson
 of counsel for the prisoner, "cannot
 refuse to set him at liberty, for there is
 no evidence to detain him. The state-
 ments of Walter J. Dobbins, who
 caused the arrest, embody nothing
 more tangible than suspicion."

Prosecutor Riker and his chief de-
 tective, Frank Virtue, are working
 earnestly on the case. Men from the
 prosecutor's office are constantly sur-
 veying the Dobbins house in Caldwell
 and scouring the country for clues. Several
 persons might be detained by
 force, if necessary, should they attempt
 to leave the neighborhood.

The apparent absence of motive for
 killing the old man has proved a
 stumbling block in the way of investi-
 gation. It has not been shown that he
 had any money or bitter enemies. One
 cause of the killing is the conflicting
 stories told by Mrs. Dobbins and Mrs.
 Hennon. "The prisoner himself has re-
 fused to talk."

Among the articles in the Prosecu-
 tor's possession is a bottle containing
 a small quantity of quicksilver. It
 bears the label of a Montclair drug-
 gist, and appears to have been for some
 time about half full. There is now
 only a little quicksilver in the bottom.
 The bottle was taken from the Dob-
 bins house.

The bones found in the stone heap
 were brought from Kunz's morgue in
 Orange to Holle's morgue in Shipman
 street, this city, for the purpose of
 minute examination, which Prosecu-
 tor Riker, assisted by Detective Vir-
 tue and Court Constable Hayes, made
 last night. They discovered a bunch of
 keys the murdered man had in his
 pocket at the time of his death, a hunt-
 ing knife and several shot. These shot
 may have come from a paper shell he
 had, and are not regarded as furnish-
 ing any certain clue to the manner of
 death. All of the bones were scruti-
 nized closely, but no evidence of vio-
 lence was found.

Agriculture in Dawson.
 Duluth, Minn., Oct. 10.—Evidence
 that the term "Frozen North" is not
 applicable to the Yukon country was
 brought down from Canada a day or
 two ago. There was a large sheaf of
 wheat, besides thrashed kernels of
 grain, oats and barley in the list of
 evidence.

It all came from near Dawson City
 and was grown this year. The wheat
 was sown late in May on ground thawed
 a few inches deep, and it was har-
 vested from seventy-five to eighty-five
 days later, thoroughly ripe. That is
 from ten to twenty days quicker than
 the best average performances of the
 famous Red River Valley. In the
 samples were white rice, red rice, and
 Scotch wheat that would pass the best
 grades here. The oats are fully as
 good as anything raised in the north-
 western states or in Manitoba, and the
 barley is six-rowed of the highest qual-
 ity. The seed grain from which this
 was produced was sent to Dawson last
 fall at the suggestion of Clifford Sif-
 ton, Canadian Minister of the Interior.
 The samples have been forwarded to
 Montreal and Ottawa and are very
 interesting and suggestive.

Trouble Ahead.
 Washington, Oct. 10.—According to
 present indications, Representative
 elect Roberts of Utah, who is a Mor-
 mon and has three wives, will meet
 with serious trouble in proving his
 right to a seat in Congress.

A former petition signed by several
 millions of influential residents of the
 United States, protesting against the
 seating of Roberts, is to be presented
 to Congress. Protests against the seat-
 ing of members-elect to Congress have
 often been made, but it is said that
 never has been followed up by so
 formidable a petition.

Representative-elect P. W. Cushman
 of the State of Washington is under
 the movement and is to raise the ob-
 jection on the floor of the House.
 When Robert's right to a seat is dis-
 puted the Speaker of the House will
 be called upon to rule. It is said that
 an appeal will undoubtedly be taken
 and that a vote will either be taken
 by the House or the matter will be re-
 ferred to the Committee on Privileges
 and Elections.

Several Moral Lessons Here.
 Rye, N. Y., Oct. 10.—If Raphael H.
 Ruberto, a shepherd who cares for the
 sheep of the Apawamis Club, did not
 have the habit of projecting his tongue
 between his teeth when angry, he now
 would not be mourning the loss of part
 of that member.

He and Louis Louisa, a fellow coun-
 tryman, were playing poker in a saloon
 here, and Louisa won three jack pots
 in succession. Ruberto accused him of
 cheating and claimed he had a card up
 his sleeve. There was a violent quar-
 rel, and Louisa, it is alleged, pulled out
 a pistol and fired.

The bullet struck Ruberto in the
 mouth, carried away the front upper
 and lower teeth, nipped off the tip of
 the protruding tongue and seared the
 lips.

When the shot was fired and the
 blood flowed, Louisa leaped out of a
 window and escaped. A dozen men
 chased him for a mile or more, but he
 eluded them.

DANBURY OFFICERS CLASH.

"Paritying" the Fair Causes a Lot of Unpleasantness.

Danbury, Conn., Oct. 10.—The efforts
 of Danbury's clergymen and certain
 prominent citizens to have the Con-
 necticut Law and Order League re-
 move certain objectionable features
 from the Danbury Fair resulted in a
 collision between the officers of the
 League and the local police. S. P.
 Thrasher, of New Haven, secretary of
 the League, was locked up on a charge
 of assault, while Special Policeman
 Michael Cunningham was held on a
 charge of using abusive language. Still
 further interesting developments are
 expected.

Cunningham made a remark about
 Thrasher as the latter passed along the
 street. Thrasher retorted by saying:
 "I know you and all your crowd."
 Cunningham took this as an insult
 and the result was that the two men
 got hold of each other's collars in a
 frantic attempt to arrest each other.
 At this juncture Deputy Sheriff Hartz
 appeared on the scene and arrested
 both men.

Ball was promptly secured for Mr.
 Thrasher, who now proposes to make
 a fight in the City Court and, if need
 be, to take it to the Supreme Court.

Say He Swindled the Government.

New York, Oct. 10.—Freeman Strait,
 arrested on a charge of swindling the
 government, has had a second ar-
 rangement before Commissioner Shields. He
 is under bonds of \$2,500. Strait, hith-
 erto a respected business man in Broad-
 way, whose financial standing has
 never been questioned, found it more
 profitable, United States officials say,
 to make \$2,000 a week by fraud against
 the government, and in arresting him
 they believe they took the first step to-
 ward capturing a band of clever men
 who, by selling war revenue stamps
 restored after cancellation, have taken
 from the War street district and its
 neighborhood more than \$100,000.
 With him a prisoner, the United States
 revenue officers started to hunt for
 others renovating cancelled war re-
 venue stamps, and they expect to arrest
 a business man whose reputation and
 standing among his fellows and social-
 ly is as good as was that of Strait.

Makes Cubans Angry.

Havana, Oct. 10.—Today is a Cuban
 national holiday in celebration of the
 anniversary of the beginning of the
 Ten Years' War. As a protest against
 Mayor Lucius's recent order that the
 Spanish flag could only be raised over
 the Consulate building the Spaniards
 have decided to display the American
 flag everywhere, over their houses,
 clubs, etc. This will surely make the
 uncompromising Cubans angry, which
 is said to be the object the Spaniards
 have in making the display.

Gamblers Held Up.

Phoenix, A. T., Oct. 10.—Gamblers of
 this city are jubilant over the fact
 that they were robbed in the good old
 style. Three men entered the fero-
 ciously guarded room at the Palace, and
 while two covered the crowd with their
 pistols the third shovelled up the heaps
 of coin. The proprietor, Gus Hirsch-
 field, shot at the one, and others shot
 at the crowd, and all escaped with sev-
 eral hundred dollars. Nobody was
 badly hurt.

Historic Building Burned.

Perth Amboy, N. J., Oct. 10.—An
 ante-Revolutionary building in this
 place, known as "The Barracks," was
 partially destroyed by fire. It was oc-
 cupied previously to the year 1775 by
 British soldiers, and until recently was
 used as the city poor-house. At the
 time of the fire it was filled with
 Italians, some of whom escaped with
 difficulty, losing most of their belong-
 ings.

Disastrous Fire at Huntsville.

Huntsville, Ala., Oct. 10.—A disas-
 trous fire occurred here. The blaze
 was discovered in A. J. Bennett & Co.'s
 livery stable. It spread quickly in all
 directions. The flames were commu-
 nicated to adjoining buildings and with-
 in forty minutes the whole block
 bounded by Washington, Clifton, Green
 and Randolph streets was in flames.
 The loss is estimated at \$175,000.

Has an Independent Company.

Akron, O., Oct. 10.—It has been learn-
 ed here that H. E. Loomis, who sold
 his salt plant to the trust had already
 organized another company with \$300,-
 000 capital. He will build a plant at
 Barborton, where salt has been found,
 with a capacity of 15 cars per day.
 Contracts have been secured for nearly
 the entire output. It will be inde-
 pendent.

Killed Three Robbers.

Evansville, Ind., Oct. 10.—News of a
 triple killing has reached here. A
 ferryman named Ashby is reported to
 have killed three negroes who attempt-
 ed to rob him on the Kentucky side,
 about five miles below the city. Particu-
 lars of the shooting cannot be
 learned. Officers left here for the
 scene of the murder.

Italian Floods Drown Forty.

London, Oct. 10.—Forty persons were
 drowned, according to a special de-
 patch from Naples, by floods following
 severe rains in the province of Salerno.
 A number of small villages and fac-
 tories have been destroyed. Troops
 have been sent to the relief of the in-
 habitants.

Cuba's Death Roll.

Washington, Oct. 10.—Gen. Brooke
 reports the following deaths at San-
 tiago: George B. Tinany, Company A,
 Fifth Infantry; pernicious malaria;
 James Astia, Quartermaster's em-
 ploye, suicide by carbolic acid.

Railroad Brakeman Killed.

Russellville, Ky., Oct. 10.—Tom Rid-
 ley, a brakeman on the Memphis
 branch of the L. and N., was instantly
 killed at Ferguson, five miles east of
 here.

THE PLOT OF A GIRL LOVER.

Florence Campbell's Scheme for Getting Rid of a Hated Rival.

POISON SENT IN THE MAIL.

She Sends to Herself a Package of Arsenic-Laden Fruit.

A Happy Accident Frustrates an At-
 tempt to Fasten the Guilt Upon an
 Innocent Woman—Most Wicked
 of Plots—The Result of Her
 Love.

It is a queer story that comes from
 San Francisco, where the police have
 been wrestling with a mysterious poi-
 soning case, in which, fortunately, no
 one was poisoned. It is the story of
 a woman's love for a married man, and
 her attempt to get rid of his wife by
 having her sent to prison on a false
 charge of sending a box of arsenic-
 laden fruit by mail. In many of its
 details the case is similar to that in
 which Mrs. Botkin figured, and the dis-
 closures are such as to make some ex-
 perts doubt the worth of the evidence
 on which the Botkin woman was con-
 victed.

Miss Florence M. Campbell, of San
 Francisco, was infatuated with John
 Rathum, a married man. She got the
 idea into her head that if she could
 get rid of Mrs. Rathum by bringing
 about a divorce Rathum would marry
 her. This was the sole purpose of a
 plot that would have done credit to
 Lucretia Borgia. It is admitted by the
 girl, and her confession has been sus-
 tained by the investigations of detec-
 tives. Miss Campbell did not wish to
 kill the woman who stood in her way.
 She merely wished to blacken her char-
 acter with a false charge which would
 land her in prison and give Rathum an
 excuse for deserting her.

Mrs. Rathum and Miss Campbell
 were at one time close friends and had
 carried on a correspondence. The latter
 had several of Mrs. Rathum's let-
 ters in her possession, and one day a
 devilish scheme came into her head.
 She had been reading how Mrs. Bot-
 kin had been convicted of sending poi-
 soned candy through the mails to the
 wife of her lover, and the most con-
 clusive bit of evidence against her be-
 ing the handwriting on the package.
 As she studied the Botkin case the
 love-sick Miss Campbell hurriedly
 framed out a course of action. She
 Sue would mail a box of poisoned fruit
 to herself; the address on the cover
 would be apparently written by Mrs.
 Rathum, and this would afford the de-
 sired means of prosecuting the woman
 into prison. It would be easy to se-
 cure conviction, as San Francisco ju-
 ries are not inclined to be lenient with
 Borgia's, and the proof of Mrs. Rath-
 um's guilt would be conclusive.

(Miss Florence M. Campbell.)

All this, it should be remembered, is
 not surmise or police theory. It is the
 story told by Miss Campbell in a mo-
 ment of remorse when she thought she
 was dying from the effect of her own
 carelessness.

What made the plan prepared by
 Miss Campbell easier was the fact that
 Mrs. Rathum had discovered the liai-
 son and was threatening a suit for di-
 vice.

Miss Campbell bought some candied
 cherries and loaded them with arsenic.
 Then, taking one of Mrs. Rathum's let-
 ters addressed to herself, she trimmed
 down the envelope so as to get rid of
 the old postmark and pasted it on the
 box. Her next move was to mail the
 package. This done she called up by
 telephone the residence of Mrs. Scheib,
 where she boarded, and, imitating the
 voice of Mrs. Rathum as closely as pos-
 sible, inquired whether Miss Campbell
 had received a package by mail. This
 was another move to fasten guilt on
 Mrs. Rathum, as Mrs. Scheib, when
 questioned by the police, said it was
 undoubtedly the latter who had talked
 over the telephone.

In preparing the box of poisoned fruit
 Miss Campbell was careful to leave
 the top layer of cherries undisturbed.
 She did this for the reason that she
 would have to pass the box around
 among the members of the Scheib fam-
 ily when she received it, and, as she
 did not wish to poison anybody, the
 top layer could be eaten without dan-
 ger. Later she would make the dis-
 covery that the rest of the contents
 were poisoned, give the affair into the
 hands of the police and the running
 down of Mrs. Rathum would be easy.

As luck would have it, after sam-
 pling the contents of the box the after-
 noon it was received Mrs. Scheib com-
 plained of not feeling well, and inno-
 cently said that she thought the cher-
 ries had made her sick. Miss Camp-
 bell, her nervous system overwrought
 by excitement, at once imagined a
 horrible condition of affairs. "What,"
 she argued to herself, "if I have made
 a mistake and put some of the poisoned
 fruit on top?" The more she thought
 of it the more nervous and apprehen-
 sive she became, and finally she imag-
 ined she also felt queer pains in her
 stomach. Then she was sure both she
 and Mrs. Scheib had eaten the poi-
 soned fruit and were going to die. She
 rushed to a drug store and got an
 antidote, consisting of mustard and
 soap, swallowed a half herself and
 then rushed back home to the relief of
 Mrs. Scheib.

In the meantime the druggist had in-
 formed the police of the poisoning case.
 Detectives called at the Scheib home
 and took possession of the box of fruit.
 Chemists analyzed the box of cherries
 and said they contained arsenic enough
 to kill a herd of cows. Experts ex-
 amined the address, and, prompted by
 the information given by Miss Camp-
 bell, found it was in the handwriting
 of Mrs. Rathum. Thus far the plot
 had worked well, with one exception.
 Mrs. Rathum was implicated all right,
 but Miss Campbell was afraid that
 both herself and Mrs. Scheib were go-
 ing to die. She said things in her ter-
 ror that the police remembered, and
 then they ran against a snarl one day
 that could not unravel they came back
 to Miss Campbell for explanation.

Neither Miss Campbell nor Mrs.
 Scheib had partaken of the poisoned
 fruit. The illness of the latter was
 caused by some slight bowel trouble,
 while the girl suffered solely from a
 guilty conscience and high nervous ten-
 sion. They both recovered speedily.
 For nearly a month the police worked
 on the mystery. It was soon settled,
 despite the incriminating address, that
 Mrs. Rathum could not have sent the
 package. Detectives ascertained that
 a young woman answering the descrip-
 tion of Miss Campbell had bought the
 cherries at one place and arsenic at an-
 other, and had been noticed by the
 postal clerks when mailing the pack-
 age. Then it was intimated to Miss
 Campbell that she might have sent the
 box herself. She repelled the charge
 indignantly. Then the officers asked her
 to explain some of the odd things which
 she had said when she thought she
 was dying. She tried to do so and
 made a sorry mess of it. Little by lit-
 tle they tangled her in a web of con-
 tradiction, and at last she broke down
 and told the story virtually as given in
 this article.

Miss Campbell is an attractive wom-
 an of good family. She is the daugh-
 ter of the Hon. John A. Campbell, of
 Cumberland, W. Va., and a graduate
 of Hiram College, Ohio. She went to
 California with letters of introduction
 to Senator Perkins and other promi-
 nent people, and has been well received
 in society there.

SHEDS HIS SKIN.

A Man Has Done So Yearly for Forty-Three Years.

A man who sheds his skin in its en-
 tirety once a year, and who has done
 so regularly for the last forty-three
 years, is one of the curiosities that
 Butte, Mont., boasts of. The man—
 J. M. Price, a fairly well educated
 miner—it at the present time engaged
 in the curious pastime of skinning him-
 self. The methods that he adopts is to
 first skin his hands and face and
 then strip it in an immense sheet from
 his body.

The process of skinning his hands
 and face was completed August 8, and
 it came from the face like a mask.
 The skin from the hands resembled a
 pair of gloves and was exhibited on
 the streets. The toughness is some-
 thing remarkable, and two men tried
 with might and main to tear it. They
 were not successful, although the skin
 is not thicker than the leather of a
 man's street glove. Price talks freely
 about the matter, although he is rather
 tender about any publication in the
 newspapers. Many physicians have
 examined him during the period of the
 skinning, but not on has been able to
 solve the problem. In speaking of the
 matter Mr. Price said:

"My mother told me that she first
 noticed the trouble when I was about
 six months old, and regularly every year
 since then I have shed my skin. It is
 a phenomenon that no physician has
 yet satisfactorily explained, although
 hundreds have made examinations and
 investigations. The fact is, that I shed
 my skin, and that is all there is to it.
 Regularly on the twenty-fourth day of
 July of each year I feel the premoni-
 tory symptoms, and on very few oc-
 casions has it missed the 24th of that
 month. The first thing I feel is nau-
 sea, and then I know that I am in for
 it. The skin becomes perfectly dead,
 and the perspiration that should come
 through forms in blisters under it, and
 the whole thing becomes loose. I gen-
 erally cut a circle around my wrists,
 and with the aid of a lead pencil strip
 it off whole for the purpose of pre-
 serving it in the shape of a glove. I
 take it off from my face in the same
 manner, but am compelled to remove
 it from my hair like a dandruff. I then
 wash my skin morning for the purpose
 of getting up a perspiration, and, as
 you see, my whole body is blistered,
 I will strip it off to-day or to-morrow.
 It comes off in great strips, as you can
 see by this photograph, which was
 taken last year. There is no particular
 pain accompanying the operation, al-
 though new skin is very soft and
 tender during the first week or two
 days. I have to lay off for about ten
 days, and then I know that I am in for
 it. The skin becomes perfectly dead,
 and the perspiration that should come
 through forms in blisters under it, and
 the whole thing becomes loose. I gen-
 erally cut a circle around my wrists,
 and with the aid of a lead pencil strip
 it off whole for the purpose of pre-
 serving it in the shape of a glove. I
 take it off from my face in the same

WEDNESDAY, OCT. 11, 1911.

TWO WAYWARD GIRLS.

Two sixteen-year-old girls residing at Christian shore have made quite a record for themselves in the last two or three days, besides giving their parents no end of worry. Monday night they failed to return home, and although they were searched for all about town no trace of them could be found. Tuesday morning the police were called upon to assist in locating the girls and after a diligent inquiry it was learned that they were seen in Kittery on Monday evening in company with two sailors. The ferry was closely watched and along the latter part of the afternoon the two wayward girls were taken in custody by Officer Shannon. They were locked up in the woman's cell and later were sent home. Unless their behavior takes a decided change for the better they will be sent to the house of correction.

A SUCCESSFUL REPETITION.

A good audience applauded the second performance of the New City Sports at Music hall on Tuesday evening. The company appeared to even better advantage than on Monday night. While the programme remained practically the same in make-up it was smoother and much more effective.

The comedians were livelier than ginger pop, and the singing had an additional spirit that made a hit.

The company leaves here with a good recommendation. It is all right, and deserves generous patronage.

The show is just what it pretends to be,—an exponent of real burlesque business,—and each and every member is a fit in the proper place.

MEMBERSHIP ROLL ENLARGED.

By a change in the constitution of the Grafton club the limit of membership has been enlarged from one hundred to one hundred and fifty. This provides for the entrance of women who may be glad of the pleasure of the general meetings, but who have felt unable to enter upon department study. Any one desiring to join any of the departments may do so by taking part in the work; otherwise she will have the privilege of the lecture and business meetings. The annual membership fee is \$3.00. Application may be made to Miss Helen C. Pender, No. 3 Merrimac street.

CLAMS ALWAYS PLENTIFUL.

It seems impossible to clean the clams out, for year after year the same beds are dug over and always with good results.

One of the old time clam diggers says that a clam will grow from the size of a pea to one and a half inches long in six months. He knows about the rapid growth of clams because he has dug over clam beds in two hours, and in five or six months afterwards he has found three or four bushels in a tide.

FOUND IN A DOORWAY.

John Barry, a private of Battery M, was picked up in a doorway on Congress street on Tuesday evening by Officers Quinn and Holbrook and taken to the station house in a semi-conscious condition. Dr. Hoffenger was summoned and worked over the man some time. Barry has had some head trouble in the past and it is thought his condition was due to that. He was taken to the fort this morning.

OBSEQUIES.

The funeral services over the remains of Mrs. Catherine Hughes, who was buried to death on Saturday evening, were held on Tuesday afternoon from her son's home. Interment took place in the family lot in St. Mary's cemetery, Rev. J. F. Creedon reading the committal services at the grave.

THAT THROBBING HEADACHE.

Would quickly leave you, if you use Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for Sick and Nervous Headaches. They make pure blood and strong nerves and build up your health. Easy to take. Try them. Only 25 cents. Money back if not cured. Sold by Globe Grocery Co.

McMULKIN-DONOVAN.

Mr. William McMulk and Mrs. Kate Donovan were united in marriage at the Church of the Immaculate Conception on Tuesday morning, Rev. Father O'Callaghan performing the ceremony. They will reside in this city.

Can't get perfect health without pure blood. Burdock Blood Bitters makes pure blood. Tones and invigorates the whole system.

BRACHMAN'S PILLS for Stomach and Liver ills.

TEA TABLE TALK.

The discouraging financial condition of the Home for Aged Women does not speak well for the city. It is a worthy institution and ought never to be deserted by the charitably inclined. It is to be sincerely hoped that some means for wiping out the indebtedness and renewing the prosperity of the Home may soon be devised.

Portsmouth playgoers have had a sample of about everything in the theatrical line thus early in the season. They have had minstrels, high class drama, repertoire, comedy and burlesque since Music hall was opened last August, with Eight Belles. That they like a variety has been indicated by the impartial patronage which they have given all the attractions.

It was very careless business to leave those carts full of crushed stone standing on Islington street without a single lantern to reveal their location as a warning to teams. Such negligence is inexcusable, for it might cost a life. If the city can't afford to buy two or three cheap lanterns, then close up that section of the thoroughfare to travel.

Fogg.

WORK ON BOSTON & MAINE SIDINGS.

Work was commenced today by Foreman Foss and crew of this city on the extension of the side tracks at Butler's Crossing, Eliot and Agamenticus.

These tracks are not long enough to use as turnouts for freight trains to pass each other, when the trains contain more than thirty-six or thirty-seven cars. It has been the plan of the company to have this done for some time, but owing to the push of work it could not be looked after till now.

A steam shovel has been placed at Fernald's gravel pit and the filling and grading will be done with gravel taken from there. Conductor Howe will have charge of the trains that will haul the gravel and material for the work which is expected to take about one month to finish.

HOW HE WOULD BET.

A well known pilot, one who is just as familiar with the entrance to New York harbor as he is with this, said this morning that from the reports of the attempts of the Shamrock and Columbia to race, the boats are very nearly equal in sailing capabilities and the races will be decided on some little thing such as a flaw or wind, or the good or bad trimming of a sail at some decisive time.

If he were to bet on the race, he said, he would toss up a cent and abide by its decision.

MACKEREL FISHING.

The mackerel fishery is turning out better than seemed likely earlier in the season. The shore catch at date is within a few barrels of 20,000, against 13,700 last year, and \$830 in 1897. Twenty per cent of the catch was secured within the past few days. In addition to this, 15,327 barrels of new salt mackerel have been imported. The receipts of Irish mackerel this year have been 3261 barrels.

A BIG TRAIN LOAD.

The regular train from Dover that arrives here at 7.20 in the morning brought down, today, fully three hundred Boston & Maine stockholders, bound to the meeting at Lawrence. So crowded were the cars that Conductor Small could not get through them all before the train reached this city.

Another crowd of Dover people went to Lawrence over the Western division on a special train, this morning.

SCHOONER BABCOCK ALL RIGHT

The schooner Lizzie Babcock, Capt. Higbee, which sailed from Philadelphia Sept. 13, for Portsmouth, N. H., coal laden, was spoken last Sunday in lat. 39 degrees, 32 minutes, N. lon. 72 degrees 14 minutes W. under bare poles. She appeared to be all right. The Babcock's whereabouts have been the cause of much speculation and not a little worry on the part of her owners and consignees.

BURGLARS RANSACK COTTAGE.

It was discovered on Tuesday that the summer cottage owned by John O'Donnell of East Rochester at Long beach, York, had been broken into and the contents badly ransacked. How much has been stolen cannot be stated until the arrival of the owners.

O'NEIL-DOYLE.

John O'Neil and Miss Mary Doyle were married at the Church of the Immaculate Conception this morning. A large number of relatives and friends witnessed the ceremony. Mr. and Mrs. O'Neil will live in Kittery.

CITY BRIEFS.

Stockholders' day on the Boston and Maine system today.

Not a single lodger was put up at the police station last night.

"How is the wind?" will again be the popular question tomorrow.

Several members of Besor senate are to have a dance at Rye, Oct. 18.

The high school football eleven is practicing hard for its next game.

Conner, photographer studio, (formerly Nickerson's,) No. 1 Congress street.

The chestnut crop this year is unusually large and the nuts are of a fine quality.

Several men have been discharged from the yard, being considered too old to work.

The nuisance of expectoration in the street cars is again becoming most noticeable.

The P. A. A. foot ball club got in an hour's good signal practice on Tuesday evening.

Besor senate, K. A. E. O., will conduct a whist party in Pythian hall next Friday evening.

The autumn foliage makes the ride on the P. K. and Y. trolleys well worth taking, just now.

The "S. G." Londres is made of the choicest stock and is the best ten cent cigar in the market.

A large force of painters were discharged from the navy yard on Tuesday for lack of work.

Several Portsmouth people contemplating attending the Dewey celebration in Montpelier this week.

An army of hunters are wending their way north on the through trains passing through this city.

The Portsmouth candle-pin bowlers go to Exeter this Wednesday evening to play a return game.

A party of eight local sportsmen leave town today for Bear lake on a two weeks' outing in camp.

Old smokers and new beginners pronounce Dowd's Honest Ten Cigar the finest brand on the market.

And still the storm of travel is towards the forests, where, fortunately, there is game enough for all.

By a change in the constitution of the Grafton club, the limit of membership has been enlarged from 100 to 150.

Rubber heels become very popular and John G. Mott is fitting out the local public with an excellent article.

The Vets are in fine fettle for the Manchester muster and declare that the old tub is fit to do the work of its life.

It was President Ward, of the Athletic club, who gave the banquet at the club house on Monday evening, and not Mr. Pethic.

Willis Smith and William H. Fay were drawn as petit jurors by Ward Clerk Albert Entwistle, on Tuesday evening.

Manager Pender went to Dover on Tuesday afternoon to arrange a game with the Dovers for next Saturday afternoon in this city.

The man who "thought it was a deer" is not so numerous as usual in the woods, but there is yet lots of time for him to get in his work.

The fishermen, almost with exception, are believers in the Shamrock, but it would be difficult to get odds on either boat along the water front.

One man in town wants to bet \$100 to \$300 that the Shamrock will not win a race. Here is a chance for a man with \$300 to make an easy \$100.

"Who is the hoodoo?" is the question of the hour about the yacht race. The impression seems to be that one of the boats has a Jonah on board.

With the advent of vestibule cars the conductors are obliged to set all the switches. This work has heretofore been done by the motorman.

Tickets for the afternoon concert of Fairman's band have been placed at twenty-five and thirty-five cents. Entire net proceeds go to the Cottage hospital.

J. H. Laine, representing the famous Fairman's concert band, arrived in town on Tuesday evening. The concerts given by his clever star musicians are making a great hit.

There is great interest in tomorrow's race and after that is over, should the Shamrock win there will still be the hope that over a different kind of a course the Columbia will do better.

Applications for football dates here have been received from Dover, East Rochester, Rochester, Sanford, Nashua, A. C. Brown university second team, Newburyport A. C., and many others.

The tickets for the grand musical entertainment to be given by Fairman's famous Boston concert band in Music hall on Saturday afternoon and evening, for the benefit of the Cottage hospital, are selling rapidly. Put in your mite, have an afternoon or evening's good enjoyment, and help out a worthy local institution.

PERSONALS.

Ralph W. Sanborn went to New York Tuesday.

Carlton Bicknell of Portland is visiting in town.

Albert King was a visitor in Boston on Tuesday.

Samuel C. Fisher of Dover was a visitor in town on Tuesday.

Assistant Marshal West has returned from his annual vacation.

City Solicitor S. Peter Emery is in Exeter today on business.

E. McKenzie of Boston passed Monday and Tuesday in this city.

Guy E. Corey will enter the Harvard Medical school the last of this week.

Frank Kelley, has entered the employ of the George W. Armstrong company at Nashua.

Mr. John Meehan, clerk at the Eldredge Brewing Co.'s office, is enjoying his annual vacation.

Dr. E. C. Blaisdell and Samuel Kingsbury started on a gunning excursion Tuesday evening.

Mrs. Harry Tibbets and children of Boston are visiting friends and relatives in this city and Kittery.

Chief Engineer Sullivan of the fire department went to Manchester this morning, to attend the muster.

Mrs. Almora B. Harriman has been appointed administratrix of the estate of the late Ann Elizabeth Treat.

Hon. Amos L. Allen was in this city on Tuesday, in attendance at a meeting of prominent electric railroad men.

W. J. Kehoe, musician for Company A, goes to Manchester on Thursday with the Veteran firemen as bugler.

Horace P. Montgomery, who has been witnessing the yacht races in New York, became disgusted at the lack of wind, and returned home on Tuesday.

Conductor Edmund Clark of the Portsmouth & Dover railroad is off duty, sick. Baggage master John Small is wielding the punch during his absence.

Past Grand Representatives Joseph H. Gardner, Albert R. Junkins and William Cotton are attending the session of the Grand lodge, I. O. O. F., at Keene.

A CHAPTER OF ACCIDENTS.

Fred Turner, a well-known cyclist, was thrown from his wheel in Rye on Sunday, and fractured his collar bone. He was brought to his home in this city where Dr. Heflinger reduced the fracture.

Horace Rowe, while playing foot ball on Tuesday, had his upper lip split open during a practice game, and had to have several stitches taken in the wound. The injury was more painful than serious.

John Tibbets, employed at the navy yard under Civil Engineer Gregory, fell from an apple tree at the navy yard on Tuesday and was badly bruised and shaken up. The accident was caused by the ladder breaking from under him. He was brought home and is likely to be laid up several days with his injuries.

A little girl, whose name could not be learned, was run over by a farm-ture team on Middle street Tuesday evening, the wheels passing over one of her feet. The driver of the team not waiting to see the injury he had done whipped up his horse and drove out of sight before his name could be learned. The little miss was taken to a nearby house and a physician summoned.

A horse and buggy crashed into a pile of crushed stone on Islington street on Tuesday evening, and besides wrecking the buggy and breaking the harness, badly cut the animal about the legs and shoulders. Surely somebody is at fault here, for the piles of crushed stone, and there were five of them, were not marked by a single lantern and are in an extremely dark part of the street. The driver of the team luckily escaped without injury.

RAILROAD NEWS.

New steel of the best kind has been put down on the double tracks between this city and Greenland, and a work train is now engaged in picking up the old steel taken out.

Forty carloads of live stock passed through here yesterday from Maine to the stock yards at Brighton.

Conductors Remick and Hobbs have returned from short vacations.

A number of the heater freight cars are being repaired for the winter service.

Large shipments of potatoes from the east comprise a greater part of the freight trains that run through from Portland to Boston.

A new platform will be put in near the tracks on the spare lot on McDonough street, and the milk which has been loaded in the cars at the freight house, at the foot of Bridge street, will be put on from McDonough street as soon as the platform is made ready.

Switchmen John H. Flynn will have charge of the new tower in the yard, which was erected while he was on his vacation at Rowley, Mass.

BOWLING.

The roll off on Tuesday evening at Schurman's bowling alleys for the suit of clothing offered to the bowler in both candle and regulation pins was watched by a large number of interested spectators of the sport. Following is the score:

CANDLE PINS.				Totals
Troy	88	85	79	252
Moynehan	66	82	91	239
Mitchell	93	82	91	249
Coffin	74	78	78	226
G. Woods	93	99	91	289
Buchanan	78	86	91	255

REGULATION PINS.				Totals
Troy	201	175	140	517
Moynehan	139	191	129	462
Mitchell	149	108	114	371
Coffin	176	126	131	433
G. Woods	146	124	160	430
Buchanan	104	154	108	366

Highest strings: candles, Woods, 99; regulation, Troy, 201.

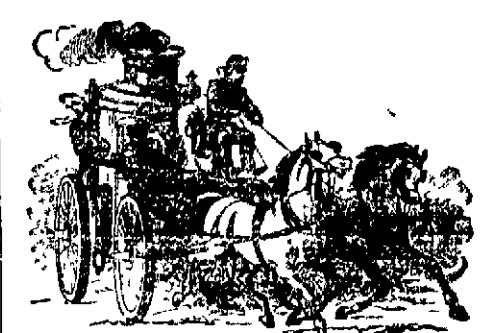

Total scores in both series: Troy, 763; Moynehan, 701; Mitchell, 620; Coffin, 653; G. Woods, 719; Buchanan, 621.

RODE WITH HER DOG.

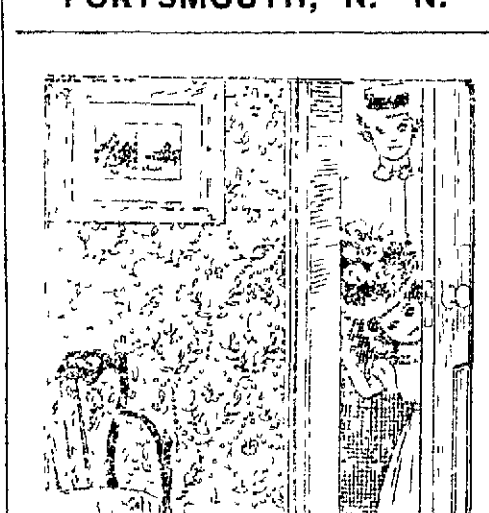

People at the railroad station on Tuesday evening, when the Flying Yankee pulled in from the east, noticed a very refined appearing lady sitting in the baggage car holding in her lap a pet dog of which she seemed to be very fond. It was learned from inquiry that the lady had ridden in this manner from Eastern Maine, the rules preventing the taking of dogs in the passenger cars and she preferring to ride with her pet in the baggage car than to trust him to the tender mercies of the train hands. The lady did not seem to find her position irksome and apparently was perfectly happy with her pet companion.

FIRE Insurance That Will Insure.
